CHAPTER V—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

PART 1204—ADMINISTRATIVE AUTHORITY AND POLICY

Subpart 15—Coordination of NASA Facilities Planning and Projects

INTERIM REGULATION

The National Aeronautics and Space Administration is issuing interim regulations to implement the coordination provisions required by the revision of OMB Circular A-95, Evaluation, Review and Coordination of Federal and Federally Assisted Programs and Projects (published in 41 FR 2052-2065, January 13, 1976), effective February 27, 1976. The interim regulations establish NASA policy and procedures for coordinating NASA facilities planning and projects with state, areawide and local planning authorities, and OMB Circular A-95 clearinghouses to assure that any such planning and projects are consistent or compatible with state, areawide and local development plans and programs.

Interested persons may submit written comments to the Office of Facilities, Code BX, National Aeronautics and Space Administration, Washington, D.C. 20546. All relevant comments received on or before March 29, 1976, will be considered. Final regulations must be promulgated no later than April 29, 1976.

1. 14 CFR Part 1204 is amended by adding a new Subpart 15, reading as follows:

Subpart 15—Coordination of NASA Facilities Planning and Projects

Sec.
1204.1500 Scope.
1204.1501 Policy.
1204.1502 Implementation.
1204.1503 Inclusion of clearinghouse comments.

AUTHORITY: Section 1204.1103 (National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*); EO 11514, March 5, 1970 (3 CFR 271 (1974)); Council on Environmental Quality Guidelines, August 1, 1973 (40 CFR 1500); OMB Circular A-106 (40 FR 1325, January 7, 1975); EO 11752, December 17, 1973 (3 CFR 380 (1974)); and EO 11738, September 10, 1973 (3 CFR 373 (1974))); OMB Circular A-95 (41 FR 2052-2065, January 13, 1976); Coastal Zone Management Act of 1972 (16 U.S.C. 1451, *et seq.*); Title IV of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4231, *et seq.*); Section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3334).

§ 1204.1500 Scope.

This Subpart 1204.15 establishes policy and procedures for coordinating NASA facilities planning or projects with state, areawide, and local planning authorities and clearinghouses.

§ 1204.1501 Policy.

It is NASA policy to coordinate installation master planning, development programs and projects, as well as real property acquisition, use and disposal, with state, areawide and local development planning authorities.

§ 1204.1502 Implementation.

Directors of Field Installations and the Director of Headquarters Administration, NASA Headquarters, are responsible for implementing the coordination policy for facility planning under their purview in the following manner:

(a) Consult with state and areawide comprehensive planning agencies and local elected officials at the earliest practicable stage of advance planning, e.g., during the preparation of Preliminary Engineering Reports or environmental assessments, whichever occurs first, on those projects having a significant impact on the conservation and development plans and programs of the state, area, or localities in which the project is to be located. Establish memoranda of agreement between NASA Installations and state and areawide OMB Circular A-95 clearinghouses for coordinating Federal and civilian planning (see Attachment A). Rehabilitation and modification projects and minor additions not having any significant impact on the conservation and development plans and programs in the area in which the project is to be located may be excluded from the coordination provisions.

(b) Assure that any such project is consistent or compatible with state, areawide, and local development plans and programs, and make exceptions only where there is clear justification. Such exceptions will be documented.

(c) Use the state and areawide planning and development clearinghouses as noted in OMB Circular A-95 for coordination of planning to the greatest extent possible, to effectuate the above requirements.

(d) Prepare environmental impact statements and provide an opportunity for review and comment as set forth in § 1204.1103, including but not limited to, state, areawide and local agencies authorized to develop and enforce environmental standards.

(e) In the case of projects located in the Coastal Zone, provide the state agency responsible for administration of the state approved program for the management of the Coastal Zone with the opportunity to review the relationship of the proposed project to such program and its consistency therewith.

§ 1204.1503 Inclusion of clearinghouse comments.

Include all clearinghouse comments, if any, with the plan and budget request.

Effective Date. This amendment takes effect on February 27, 1976.

WM. E. LILLY,
NASA Comptroller.

ATTACHMENT A

ITEMS TO COVER IN MEMORANDA OF AGREEMENT

The items to be covered in Memoranda of Agreement between NASA Installations and state and areawide OMB Circular A-95 clearinghouses for coordinating NASA and civilian planning:

1. Clearinghouses will be contacted at the earliest practicable point in project planning. Generally, this will be during the preparation of Preliminary Engineering Reports, or possibly earlier if meaningful information is available that could practically serve as an input in the decision-making process. It should be noted that clearinghouses are generally comprehensive planning agencies. As such, they are often the best repositories of information required for development planning and constitute a resource that can often save Federal planners substantial time and effort, if consulted early enough. In addition to providing information necessary for preliminary engineering, clearinghouses can make useful inputs to the development of environmental impact statements, as well as in reviewing draft statements. Thus, consultation at the earliest stage in planning can have substantial payoffs in installation development.

2. Clearinghouses will be afforded a minimum time of 30 days in which to review and comment on a proposed project and a maximum time of 45 days in which to complete such review.

3. The minimum information to be provided to the clearinghouse will consist of project description, scope and purpose, summary technical data, maps and diagrams where relevant, and any data which would show the relationship of the proposed project or action to applicable land use plans, policies, and controls for the affected area.

4. Establish procedures for notifying clearinghouses of the actions taken on projects, such as implementation, timing, postponement, abandonment, and explaining, where appropriate, actions taken contrary to clearinghouse recommendations.
